Request for Bids (One-Envelope Bidding Process)

Name of Project: Lao Road Sector Project 2 (LRSP2)
Contract Title: CW-PHO-01 Lot 1: Climate Resilient Maintenance of Road No. 1201 from Km 0+000 (Junction NR1B) to Km 31+200 (Ban Samphan)
RFB Reference No.: CW-PHO-01-RFB1

1. The Lao People's Democratic Republic has received financing from the World Bank toward the cost of the Lao Road Sector Project 2 (LRSP2) and intends to apply part of the proceeds toward payments under the contract for Contract CW-PHO-01 Lot 1: Climate Resilient Maintenance of Road No. 1201 from Km 0+000 (Junction NR1B) to Km 31+200 (Ban Samphan) in Phongsaly Province.
2. The Ministry of Public Works and Transport now invites sealed Bids from eligible Bidders for the Climate Resilient Maintenance of Road No. 1201 from Km 0+000 (Junction NR1B) to Km 31+200 (Ban Samphan). The works comprise the following:
 - a) In flat to rolling terrain, outside the villages, the road will be with gravel surfacing to existing 5.0m carriageway without shoulders. In the villages, the existing road will be upgraded with DBST surfacing to existing 5.0 m carriageway width, without shoulders. The total length of improvement is approximately 31.20 km.
 - b) The existing pavement is to be regraded and compacted and/or scarified and recompacted with additional material as necessary to form the subgrade and overlaid with 200 mm gravel thickness in the areas outside the villages and in flat to rolling terrain. In the villages and in sections with steep gradients, the subgrade will be overlain by a 150mm cement stabilized base, without subbase and sealed with DBST.
 - c) Over the most part, the alignments, both horizontal and vertical, will follow those existing.
 - d) Works include drainage improvements or construction, such as construction of new 1000mm and 1200mm diameter pipe culverts with concrete inlet/outlet structures and providing concrete side drains in very steep gradients and in villages.
 - e) Works also include provision of traffic signs and traffic markings in paved sections.
 - f) The major quantities have been estimated as follows:

Common Excavation	20,000	m ³
Embankment	5,000	m ³
